

Club and District Happenings

~from an article by John Reusche -
Camp Royal Oversight Chair

These are some of the definitions of leadership composed by the students at RYLA – Camp Royal this year:

Leadership is something that is inside you, but means nothing unless expressed; it is character. It is not only about success, but is about significance. Lead by example and integrity. Believe in yourself, show confidence and others will believe in you as well, in turn, building more confidence and strength in yourself. A leader brings out the best in others as well as himself. Leadership is about perseverance and faith; without faith in yourself, you have nothing.

A leader is a catalyst for positive reaction. Having leadership is when your family and friends are extremely important to you and they support you 100%. Having leadership is sharing the credit with everyone, whether it's with someone else or a group; it's never just you in the spotlights. You understand that people are different and people have different opinions than yours, and realize that the word "different" is not wrong. You show everyone around you respect and that is the number one key to being a leader. Being a leader isn't in it for the money, but the satisfaction of helping others. Being a leader is not being good at everything; it is the desire to do everything to your full potential.

Rotary attempts to expand existing leadership skills through the use of an intensive training camp - Camp Royal or RYLA. Its purpose is to provide exposure to leadership role models, motivational and educational speakers and group training projects. The objective is to show the students that through leadership they can accomplish more than they ever imagined they could.

165 young men and women just completed this program that is arguably one of the best investments we as Rotarians in District 5220 make on an annual basis.

District 5220 Rotarians, you have made a wise investment in our future leaders.

RYLA CAMP ROYAL

Here are a few photos from the girl's camp provided by Pam Bizzini of Salida Rotary:

Business Olympics Project "Rosie the Rotarian" Robot. Does good deeds and helps you with your chores and home-work so you can have a life.

Morning delivery of the Camp Royal Newspaper "The Royal Riot" Holding Box, Jennifer the Editor & fellow camper Alisha.
