

ROTARIANS AT WORK DAY

MADERA Rotarians Spruce Up Rotary Park –by Diana Barden

(photo shows Rotarian Kay Rhoads, right, helping a Heartland Opportunity Center Rotary Community Corps member learn the steps on planting a garden and "greening" our environment.)

Members of the Madera Rotary Club partnered with the Heartland Rotary Community Corps and the City Parks and Recreation Department to landscape and clean up Rotary Park on Rotarians at Work Day. All Volunteers, including the littlest family members, wore bright yellow vests that had "Rotarians at Work" printed on the back.

They planted over 250 plants, shrubs, and trees along the river walk adjacent to the park and cleaned up the river bed and surrounding area. There was even clean up work done by our own "graffiti busters". The work day concluded with a picnic lunch in the park for everyone who came out to "Make Dreams Real".

ATWATER Police Chief and Rotarian Richard Hawthorne joined Atwater Rotarians, Atwater-Buhach High School Interact and Bellevue Youthact Students in Planting 40 trees, and numerous flowers at Osbourne Park and Bellevue Middle School. Over 70 Volunteers made a real difference at the two sites.
