What is a leader? Here's a compilation of definitions given by the RYLA students at the end of their weekend:

A leader is someone who takes the initiative. He is one that others can look upon for guidance, advice, motivation, and inspiration. A good leader keeps his goals in sight and stays committed and strong through all adversity. A leader can adapt to different situations in order to teach, fix problems, communicate accordingly, and make good, moral, and ethical decisions under pressure. A good leader is optimistic, no matter how serious or emotional something may be and keeps his cool so others don't feel pressured. A leader sacrifices personal wants and needs without expecting something in return. A leader brings the best out of people. A leader is a team player who includes everyone's opinions. A leader wouldn't ask someone to do something he wouldn't do himself. A leader doesn't micromanage; he trusts in the people he's leading to complete their task. **Not bad for 17-year-olds!**
